

ATENAS
COLLEGE
"EDUCANDO PARA EL FUTURO"

Description of Physical Facilities

Atenas College is located at 101 Paseo de la Atenas, Manatí, Puerto Rico. It holds six buildings; as follows:

- Building 1: Student Services
- Building 2: Presidency
- Building 3: Julio E. Hernández
- Building 4: Annex A
- Building 5: Annex B
- Building 6: Annex C

The Student Services Building provides two spacious levels distributed as follows:

- First level has 2,130 square feet which hold student service offices, a reception area, five storage rooms, and two bathrooms.
- Second level has one thousand five hundred 1,527.36 square feet which are distributed into offices, storage rooms, records room, communications server room, and bathrooms.

The Presidency Building has two levels:

- First level has one thousand two hundred 1,296.36 square feet distributed into a reception area, offices, student record room, storage room, and bathrooms.
- Second level has equally 1,343.20 square feet distributed into reception area, conference room, offices, and bathrooms.

The Julio E. Hernández Building consists of three levels which are distributed as follows:

First Level

Has a total 14,397.47 square feet distributed into classrooms, computer laboratories, Simulation Center for Office Systems Management and Health Information Management, Cardio-Pulmonary Resuscitation (CPR) Center, science laboratory, ultrasound laboratories, CT Scan and Mammography laboratory, and X Ray Laboratory with computers, dark room, offices, six bathrooms, student center, storage rooms, elevator, and Student Center.

Second Level

Has total 8,945.42 square feet. At this level is the Simulation and Clinical Learning Center, Skill Laboratory, Classroom and Office Academic. This Center integrates all programs offered which enable student development for the necessary competencies and skills. This facility is distributed as follows: Adult ICU, Pediatric and Neonatal ICU, simulated pharmacy, pharmacy technician laboratory room, simulated operating room, control areas, communications center for Emergency Medical which communicates by radio with the simulation mobile unit, debriefing rooms, mother-child area, newborn room, pediatrics area, medicine and triage area, physical therapist assistant laboratory and pediatric and neurology laboratory, emergency medical skills laboratory, respiratory care skills laboratory, reception area, student locker area, and bathrooms. These different areas simulate hospital scenarios with high fidelity technology simulators that simulate real patients.

Third Level

Has a total of 9,372.99 square feet which are distributed into classrooms, offices, bathrooms, faculty lounge, learning resource and technology center, conference room, copy room, and cubicles for general or individual study.

Annex A

Has two level and one thousand three hundred thirty point eight (1,330.8) square feet and consists of classrooms, office, and bathrooms. Second floor has one thousand three hundred (1,300) open square feet. It is used as a grand room for conferences, trainings, and workshops for students and teachers.

Annex B

Has one thousand seventy-three hundred point eighty-nine (1,073.89) square feet and consists of faculty room, tutoring room, bathrooms, nursing science program office and sitting area.

Annex C

Has two thousand eight hundred (2,800) square feet and consists of two levels. First level has one thousand four hundred (1,400) feet distributed as follows: classrooms and bathroom. Second level has equally one thousand four hundred (1,400) feet and is distributed into offices, tutoring rooms, and bathroom.

All buildings are enabled with appropriate facilities to provide services to students and people of the community with physical disabilities. We have an elevator in the main building which provides access to the second and third floors; also, access ramps and bathrooms for people with special needs. The Student Center, “Mirna Carrión Espino”, is equipped with tables, chairs, monitors, photocopiers, snack machines, Wi-Fi access, and microwave ovens for the use and comfort of our students.

The institution provides secure parking space with security service, with possibilities for expansion, for the convenience of our students. During the past five years, Atenas College has expanded its facilities for the convenience of the growing student population.
